ORDER

Came on for consideration is Plaintiff's April 23, 2021 Motion to Amend/Correct to Serve Supplemental Infringement Contentions and Defendant's July 8, 2021 Motion to Dismiss for Failure to State a Claim (First Amended Complaint). ECF No. 53 and 59 respectively. After full consideration of the parties' briefs and oral arguments, Plaintiff's Motion is **GRANTED** and Defendants' Motion is **GRANTED IN PART AND DENIED IN PART**.

I. BACKGROUND

Epistar filed suit in May 2020 alleging infringement of five patents. ECF No. 1. Along with the Complaint, Epistar included five claim charts identifying a single accused product – the GE Soft White ClassicLED 4.5W A19 Medium Base Bulb. ECF No. 1-6, through 1-10. Epistar’s deadline to serve Final Infringement Contentions (“FICs”) elapsed on April 8, 2021. (ECF No. 36.) Epistar missed that deadline and instead filed a motion captioned Plaintiff’s Opposed Motion for Leave to Serve First Supplemental Infringement Contentions (“Motion for Leave”). ECF No. 53. The Motion for Leave addressed six products associated with six product series (GE Classic, GE Refresh, GE Relax, GE Basic, GE Reveal, and GE Vintage). ECF No. 53-5 through 53-9.

Because Epistar’s testing of Defendants’ products was ongoing, in the same Motion for Leave, Epistar also sought leave to further supplement its infringement contentions on June 30, 2021. On June 30, 2021 Epistar served its Second Supplemental Infringement Contentions, which, *inter alia*,

updated the list of Accused Products to include additional item and model numbers that had either become available on Lowe’s website since April 2021 or that testing by Epistar’s experts since April 23, 2021 had allegedly shown to infringe Epistar’s patents.

On June 3, 2021, Epistar filed its First Amended Complaint. ECF No. 56 (“FAC”). The sole difference between the original and First Amended Complaint is the addition of the following passage: “At least Lowe’s GE Classic Series lightbulbs, GE Refresh Series lightbulbs, GE Relax Series lightbulbs, GE Basic Series lightbulbs, GE Reveal Series lightbulbs, and GE Vintage Series lightbulbs that include one or more LED filaments infringe the asserted claims of the patents-in-suit including, but not limited to, LED lightbulb models listed in Exhibit 18.” *Id.* ¶ 30. Exhibit 18 to the First Amended Complaint identifies by item and model numbers specific GE LED filament bulbs sold by Defendants that allegedly fall into the listed product series, similar to the April 23 First Supplemental Infringement Contentions (ECF Nos. 53-05 - 53-09).

The First Amended Complaint correlates Accused Products to the specific patents. Namely, Paragraph 30 defines “Accused Products” as including the item and model numbers listed in Exhibit 18. Then, each cause of action asserts that the Accused Products (as defined) infringe each asserted patent, respectively. *See, e.g.*, FAC ¶ 54 (“Defendants have infringed, either literally and/or under the doctrine of equivalents, one or more claims of the ’068 patent and continue to infringe in this District, by making, using, selling, offering for sale, and/or importing into the United States products including, but not limited to, the Accused Products, without the permission of Epistar”) (emphasis added).

On June 29, 2021, the Court informed the parties via email that it “is inclined to grant [Epistar’s Motion for Leave] under the condition that Defendants receive enough time to respond to the amended contentions.” 6/29/21 email from Mr. Pearson. On July 6, 2021, the Court entered the following order: “If the parties can come to an agreement on a revised schedule that allows Plaintiff to amend their infringement contentions while permitting Defendant more time to respond, then the motion will be

granted.” 07/06/2021 Text Order. The parties met and conferred extensively but could not come to an agreement on a revised schedule.

Defendants oppose the Motion for Leave and seek to dismiss the portion of Epistar’s First Amended Complaint corresponding to Exhibit 18 alleging that it lacks plausible infringement allegations. ECF No. 59 at 7.

II. LEGAL STANDARD

Upon a showing of good cause, a court may permit plaintiff to amend its infringement contentions. See Fed. R. Civ. P. 16(b)(4); *Georgetown Rail Equip. Co. v. Holland L.P.*, Case No. 6:13-cv-366-JDL, 2014 U.S. Dist. LEXIS 198784, at *6, *13 (5th Cir. Oct. 7, 2014) (“relevant factors in this case favor granting the motion for leave to amend infringement contention”). Courts evaluate four factors to determine whether there is good cause to modify the scheduling order: (1) the reason for the delay and whether the party has been diligent; (2) the importance of the amendment; (3) potential prejudice in allowing the amendment; and (4) the availability of a continuance to cure any prejudice. See *Georgetown Rail Equip. Co.*, 2014 U.S. Dist. LEXIS 198784, at *7.

The Federal Rules of Civil Procedure require a plaintiff to provide “a short and plain statement of the claim showing that the pleader is entitled to relief.” Fed. R. Civ. P. 8(a)(2). The primary purpose of a complaint is not to prove a case, but only to “give the defendant fair notice of what the . . . claim is and the grounds upon which it rests.” *Bell Atl. Corp. v. Twombly*, 550 U.S. 544, 555, 127 S. Ct. 1955, 1964 (2007).

III. ANALYSIS

A. Epistar’s Motion for Leave does not unfairly prejudice Defendants

The Court finds the Plaintiff diligent in pursuing testing the products at issue and the Court finds Epistar’s request for leave important for proving its infringement case. Further, the Court is of the opinion that any prejudice experienced by Defendant is mitigated by granting Defendants additional

time to respond. If Defendants believe the current schedule unduly prejudices them and they are unable to agree with Plaintiff on a schedule going forward, they are instructed to contact the Court to seek relief.

In the spirit of the Court's June 29 email and associated July 6, 2021 text order, the Court **GRANTS** Epistar's Motion for Leave. The Motion is granted under the condition that Defendants receive enough time to respond to the amended contentions.

B. The accused products that do not fall within any of the six product series are DISMISSED

Exhibit 18 of Epistar's Amended Complaint identifies products and correlates some of those products with specific product series which are then tied to certain patents or patent claims. ECF No. 56-18. Federal Rule of Civil Procedure 11 bars vague and evidentially unsupported allegations as an exhibit to a pleading. Because some identified products do not fall into at least one of the identified product series (GE Classic, GE Refresh, GE Relax, GE Basic, GE Reveal, and GE Vintage), they lack a basis to assert infringement. Thus, Defendants Motion to Dismiss is **GRANTED IN PART AND DENIED IN PART** and the products the Court finds do not fall into one of the aforementioned product series are **DISMISSED**. Those products are listed below:

If the parties believe that one or more was included or omitted in error, the Court should be motioned accordingly.

IV. CONCLUSION

Because the Court finds Plaintiff's Motion for Leave diligent and important while mitigating any prejudice experienced by Defendant by granting Defendants additional time to respond, Epistar's Motion for Leave is **GRANTED**. Because some identified products do not fall into at least one of the identified product series (GE Classic, GE Refresh, GE Relax, GE Basic, GE Reveal, and GE Vintage), the Court finds they lack a basis to assert infringement and they are therefore **DISMISSED**. Thus, Defendants Motion to Dismiss is **GRANTED IN PART AND DENIED IN PART**.

SIGNED this 4th day of August, 2021.
